WELCOME TO MAINLINE OPTICAL CONNECTIONS

At Mainline Optical Connections, we're proud to bring four decades of experience to the optical industry. Our unwavering commitment is to provide innovative solutions and the essential support you need to drive your success.

LEADERS IN CUTTING-EDGE TECHNOLOGY

As the official distributor of Huvitz and MEI EasyFit Glazing Systems, we deliver the latest advancements in optical technology. From state-of-the-art equipment to a comprehensive range of consumables, we've got everything your lab and dispensing team need to excel.

SIMPLE AND CONVENIENT ORDERING

Ordering from Mainline has never been easier. Visit our website, or call our friendly team for personalised assistance. If you need a product not listed in our catalogue, let us know—we'll do our best to source it for you.

FAST, RELIABLE DELIVERY

Over 98% of orders placed before 4:30 PM are dispatched the same day for next-day delivery. Plus, every order comes with a sweet treat—because great service should always come with a little extra!

Welcome to Mainline Optical Connections—your partner in optical excellence!

HOW TO ORDER

Placing an order, setting up an account, or seeking advice and technical information has never been easier. Here's how you can connect with us:

CALL US

Reach us at 01377 257752,
Monday to Friday, 8:30 AM – 5:00 PM.

EXPERT TRAINING FOR OPTIMAL PERFORMANCE:

Our technical team, many with backgrounds in optical practices, possess firsthand knowledge of the challenges you encounter daily. Beyond instructing you on machine functionality, our training extends to optimising these systems for your specific requirements.

Complimentary training is included with our machine installations, and we offer additional sessions for new staff or processes. Simply request a 'specialist training discussion' for personalised assistance.

CAN YOU AFFORD NOT TO HAVE THE EASYFIT IN YOUR LAB?

REDUCE COSTS

NO BLOCK TECHNOLOGY MEANS NO NEED FOR BLOCKS OR PADS
REDUCING CONSUMABLE COSTS

PRECISION

INCREASED ACCURACY WITH TOTAL QUALITY CONTROL SYSTEM

ENVIRONMENTAL SUSTAINABILITY

NO WATER USED MEANS SAVING COSTS AND THE ENVIRONMENT

PRODUCTIVITY

UNMATCHED CYCLE TIMES FOR EVERY LENS TYPE WITH THE
ABILITY TO LOAD BOTH LENSES AT ONCE

EASE OF USE

WITH AN EASY TO USE TOUCH SCREEN AND THE TOTAL QUALITY CONTROL SYSTEM.
THE MEI COULD NOT BE SIMPLER TO USE.
WHETHER YOU HAVE 30 YEARS' EXPERIENCE OR HAVE JUST WALKED IN OFF THE STREET

The lab operator everyone would like to have.

The EasyBuddy is an automated system with an integrated cobot that keeps your EasyFit Trend running with minimal manual input. It delivers consistent, precise performance without fatigue - freeing you up to focus on the tasks that matter most.

BENEFITS

- Your daily job has never been so EASY
- High level of automation
- Versatility
- Modularity
- Increased autonomy

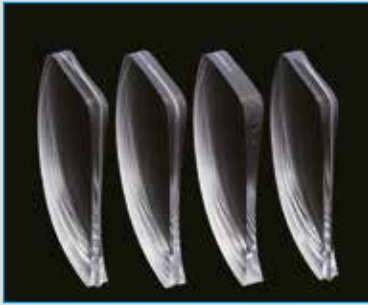

THE HPE-990 DELIVERS UNCOMPROMISING PERFORMANCE FOR PRACTICES THAT DEMAND THE VERY BEST.

- Hydrophobic and high-curved lenses are mastered with Ultimate Power.
- The Huvitz HPE-990 features a motor 1.7 times more powerful than its predecessor and a stable clamping system.
- Advanced step level processing up to 20 mm enables the HPE-990 to handle extreme and specialist lens work with ease.
- Flagship Huvitz edging technology delivering uncompromising precision and finish quality.
- Designed for high-volume practices and labs, maximising throughput without sacrificing quality

DISCOVER THE STRENGTH OF THE HPE-990.

Huvitz
CONNECTING SIGHT SUCCESS

Huvitz
CONNECTING SIGHT SUCCESS

THE HPE-910 – THE PERFECT BALANCE OF POWER, PRECISION AND PERFORMANCE IN THE HUVITZ EDGER RANGE.

WHY THIS MATTERS TO YOU:

1. Faster Production, Greater Efficiency

Experience twice the processing power, reducing wait times and boosting lab productivity.

2. Effortless Auto-Blocking for Seamless Workflow

One-touch auto-blocking (when paired with the HAB-910) simplifies your process, minimising errors and improving efficiency.

3. Precision Cutting for Complex Shapes

Easily scan and cut intricate shapes, including concave cuts, to meet diverse customer needs with accuracy.

4. Faster, More Accurate Rimless Processing

The integrated drill speeds up rimless and exotic shape processing, bringing greater capabilities with reduced outsourcing

5. Perfect Bevels for Every Frame

Choose from multiple bevel processing options including mini, asymmetric, blunt, hybrid grooving, and step bevel for a flawless finish tailored to any frame.

6. Superior Lens Handling for High-Curved Lenses

The adaptive clamp chuck minimizes lens deformation and automatically adjusts pressure for optimal results, protecting delicate or high-curved lenses.

THE HPE-410 COMBINES ESSENTIAL HUVITZ TECHNOLOGY WITH OUTSTANDING VALUE FOR MODERN PRACTICES.

WHY THIS MATTERS TO YOU:

1. Boost Productivity with Seamless Multi-Tasking

The HPE-410 allows you to multitask effortlessly during tracing and edging, saving time and increasing efficiency in your workflow.

2. Precision and Waste Reduction

Select from three roughing methods (Normal, Spiral, Axial) tailored to lens material and coating, ensuring greater accuracy and reducing costly waste.

3. Simplify Coated Lens Processing

One-touch hydrophobic mode adjusts lens rotation speed for ultra-water-repellent coatings, preventing axis twist and simplifying operations.

4. Handle High-Curved Lenses with Ease

The adaptive clamp chuck minimizes lens deformation, automatically adjusting pressure for high-curved lenses to deliver superior results.

5. Enhanced User Experience

The responsive 9.7" colour display with a user-friendly interface allows for quick and intuitive data input, making your workflow smoother and more enjoyable.

HASSLE FREE SERVICE PLAN COVER

Our Service Plan Membership is your ticket to hassle-free maintenance and top-notch service. At Mainline Optical Connections, we recognise the significance of maintaining your equipment in prime condition. That's why we offer a comprehensive service plan tailored to meet your requirements.

WHAT IS A SERVICE PLAN?

Our Service Plan offers a proactive method to upkeep your glazing equipment. This customised package comprises of routine inspections, preventive maintenance, and prioritised service to guarantee that your equipment operates smoothly and efficiently over its entire lifespan.

WHAT EQUIPMENT CAN A SERVICE PLAN COVER?

Our service plans extend to lab glazing equipment from the brands Huvitz and Nidek. Moreover, these plans can be tailored to include service coverage for additional items like lensmeters and tint units. Contact us to find out more

WHY JOIN OUR SERVICE PLAN?

- ✓ Experience peace of mind by choosing our Service Plan, where your equipment will be expertly maintained. We handle all maintenance tasks to reduce unexpected downtime and guarantee optimal equipment performance.
- ✓ Enroll in our Service Plan for substantial cost savings compared to one-time maintenance services. Benefit from predictable, manageable payments for effective budgeting and prevention of costly future repairs.
- ✓ As a Service Plan member, you will have priority scheduling for maintenance and repair appointments, ensuring prompt attention to your equipment when needed.
- ✓ In case your equipment needs repair, rest assured that as a Service Plan member, you will receive discounted replacement parts to keep expenses minimal.
- ✓ With over 60 years combined experience you can rely on our team of skilled technicians for expert assistance and advice. Whether you have inquiries, need troubleshooting, or face emergency repairs, we are here to support you at every stage.

VALUE PLUS HAND EDGER

Best selling unit. Suitable for chamfering and re-sizing lenses using a double-sided wheel with rough and fine side. The additional foot pedal has the added benefit of saving electricity and wear and tear on the motor associated with the unit constantly running.

Compact design 35cm x 22cm x 27cm.

CODE	DESCRIPTION	PRICE
E005	Hand Edger	£260.00
E065	Hand Edger with foot pedal	£300.00
B209W	Replacement Wheel	£90.00
B209BELT	Replacement Belt	£13.00
B209SP	Replacement Sponges	£5.00

VALUE PLUS LENS GROOVER

The Value Plus Automatic Lens Groover is a budget option for grooving lenses, it comes with adjustable groove position. It can be set up to use with a 0.5mm or a 1mm width wheel to cover most frame types.

- Adjustable groove and depth position
- Quick and simple to use
- Grooves poly, plastic and glass
- Complete with full and half eye chuck set and spare belt.
- Supplied with 0.5mm Wheel

CODE	DESCRIPTION	PRICE
E008	Value Plus Lens Groover	£260.00
E008/HB	Head Motor Belt	£16.00
B203BELT	Main Motor Belt	£16.00
B230W.5	Cutting disc 0.5mm	£44.00
B203W1.0MM	Cutting disc 1mm	£44.00

VALUE PLUS DOUBLE BUFF

A twin spindle buffing unit enables the user to buff and polish frames or lenses when needed.

- Twin Spindle
- Supplied with Polishing Mops
- Includes Safety Guard

CODE	DESCRIPTION	PRICE
TW906	Value Plus Double Buff	£195.00
TW906C	Calico mop	£15.00
TW906S	Swansdown mop	£15.00

SAVE WATER • REDUCE COSTS

**MAINLINE OPTICAL
CONNECTIONS**
FILTERING SYSTEM

COMPACT AND DUO FILTRATION SYSTEMS

Save money & reduce your water usage by over 1 million litres of water per year*

Mainline filtration systems reduce water usage vastly, providing the perfect operating conditions for any lens edging system.

Mainline filtration systems operate a closed circuit water feed, removing the need for costly direct water supply and sewage, with none of the hassle of having to regularly change the water with a traditional pump and tank. They filter the water daily allowing you to start the next day fresh, with clean water all at the touch of a button. Based on average usage, the filter bag is changed regularly, allowing the safe disposal of the collected lens particles and replaced with a new bag allowing you to operate again with the same water.

Easy to use

- Daily filtration is controlled at the touch of a button.
- Easy to install
- Designed to fit directly under the lens edger.
- Environmentally friendly
- Removes any particles suspended in the used water, exceeds current legislations on waste water.

Universal Fits with all brands and models of lens edger.

** Based on 100 jobs per day, each lens using 15 litres of water.

CODE	DESCRIPTION	PRICE
DUO1	Duo Filtration System	£3600.00

PREMIUM DOUBLE PUMP AND TANK SYSTEM

The premium double pump and tank system features two high-performance Premium Syncra Pumps, providing precise water flow control to meet your edger's needs. It also includes a filter box that minimises residue, ensuring cleaner water recirculation for optimal performance.

CODE	DESCRIPTION	PRICE
HUVPUMP	Premium Double Pump And Tank System	£700.00

MAINLINE PUMP AND TANK

Our Pump and Tank System comes with one Premium Syncra Pump and offers three tank size options to suit your needs.

CODE	DESCRIPTION	PRICE
204	Mainline Pump and Tank (Small)	£365.00
204M	Mainline Pump and Tank (Medium)	£390.00

GRAB BAG WITH TIE

The Grab Bag easily fits at the bottom of the waste pipe and can sit in a settlement tank when using mains water, or in a tank when using a pump system. The Grab Bag filters out heavy swarf particles helping to stop blockages and scratches occurring. 50 x 52cm.

CODE	DESCRIPTION	PRICE	MULTIBUY 10+
120	Grab Bag with Tie 50 x 52cm	£8.00	£6.00

PREMIUM SYNCRA PUMP

The Premium Syncra Pump allows full control of the water supply to match the edgers needs. It is compatible with all leading brands of equipment. Quiet operation. Energy efficient motor.

Connection kits available, please call to discuss requirements.

CODE	DESCRIPTION	PRICE
212HN	Compatible with Huvitz & Nidek pump	£395.00
212E	Compatible with Essilor pump	£395.00

DIRECT WATER FILTRATION UNIT

Our Direct Water Filtration Unit helps filter out residue in the water before reaching the mains water drainage system. Easy-to-change filter pads help reduce the chances of blockages occurring due to waste build-up from the edger.

Length 40cm.
Height 37cm.
Depth 30cm.

CODE	DESCRIPTION	PRICE
253F	Direct Water Filtration Unit	£115.00
3331PACK	Pack of 10 Replacement Filters 25.5 x 36.5cm	£30.00
3331NP	Pack of 10 Nidek Replacement Filters 37 x 57cm	£40.00

TANK FRESH

Eliminates edger tank odours, keeping your lab fresh and clean. Use 50-100ml per tank for optimal results. Suitable for use with direct filter boxes and pump and tank systems.

CODE	DESCRIPTION	PRICE
E052	Tank Fresh 1 Litre	£18.00

OPTIFOAM

Prevents foam build-up during the edging process, ensuring smooth operation. Use half a cap per tank. Ideal for use with pump and tank systems.

OPTIMISING YOUR GLAZING PROCESS – THE RIGHT PADS FOR EVERY LENS

Choosing the right glazing pads and anti-slip solutions is crucial for ensuring precision, stability, and efficiency in your lens edging process. Different lens materials and coatings require specialised pads to prevent slippage and achieve a perfect finish.

At Mainline Optical Connections, we offer a comprehensive range of glazing pads and anti-slip discs, designed to suit a variety of lens types and coatings, including:

STANDARD GLAZING PADS

Ideal for everyday lens edging, providing strong adhesion and stability.

HIGH-TACK PADS

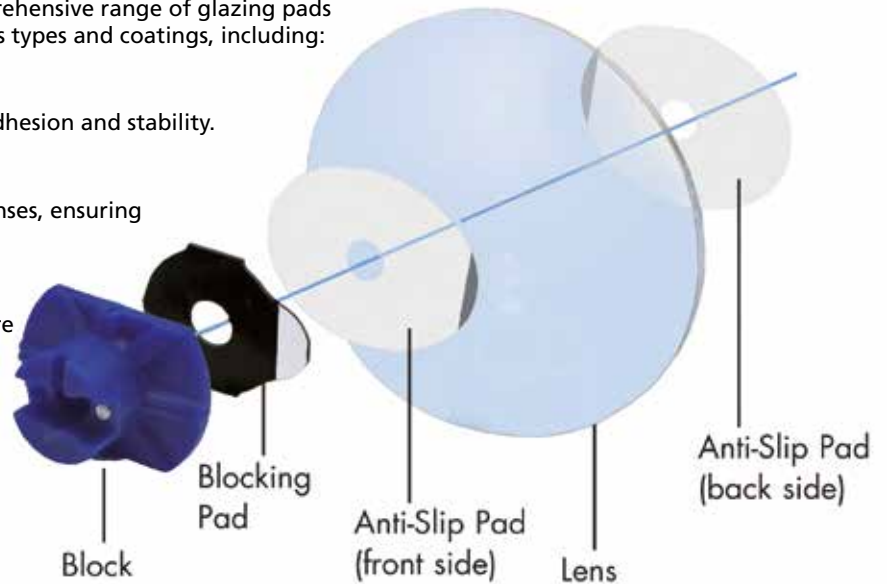

Designed for super-hydrophobic and AR-coated lenses, ensuring maximum grip to prevent slippage.

SOFT FOAM PADS

Perfect for delicate or thin lenses, reducing pressure to prevent distortion.

ANTI-SLIP DISCS

Added security for high-curved and challenging coatings, preventing movement during edging.

AT MAINLINE OPTICAL CONNECTIONS, WE PROVIDE EXPERT GUIDANCE TO HELP YOU SELECT THE BEST GLAZING AND ANTI-SLIP SOLUTIONS FOR YOUR SPECIFIC NEEDS.

INDUSTRY-LEADING PARTNERS & TECHNOLOGIES

Dac Vision - Advanced Ophthalmic Solutions

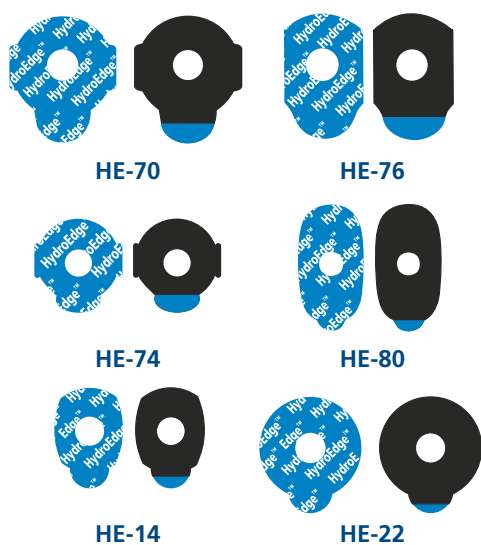

For over a decade, Mainline Optical Connections has partnered with Dac Vision to supply cutting-edge ophthalmic consumables. Their diverse range of edging pads is designed to meet even the most challenging lens materials and coatings,

These are only a couple of the leading brand that we work with when it comes to our glazing and anti-slip consumables

ELITE GLAZING PADS

DESIGNED TO ELIMINATE THE NEED TO USE OTHER ANTI-SLIP PRODUCTS.

DAC HYDROEDGE

Precision-Engineered for Hydrophobic Coatings
DAC HydroEdge is specifically designed to handle hydrophobic coatings with ease. Featuring a dual-adhesive system, it ensures optimal bonding to both the block and the lens, providing superior glazing performance.

Features:

- Single blue tab for easy identification of the lens adhesive
- Available in rolls of 500 to help manage costs

Recommended for use with super hydrophobic coatings.

Pricing is based on 500 pads per roll. Supplied in rolls of 1,000 when available.

ENHANCE PROTECTION FOR YOUR GLAZING JOBS

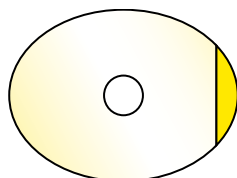

SIP's are designed to prevent lens slippage, reducing the need for costly glazing pads and ensuring more stable, efficient results. Protect your lenses and your budget with this simple, effective solution.

SIP-40

SIP-19

SIP-GOLD

SIP PAD

SIP's provide added security for hydrophobic coated lenses, offering peace of mind during the glazing process. Available in shapes compatible with Essilor, Nidek, and Huvitz edgers.

CODE	DESCRIPTION	QUANTITY	PRICE	MULTIBUY 6+
SIP-40	25 x 40mm SIP Pad	1000 per Roll	£33.00	£29.50
SIP-19	19 x 40mm Clear Lens Protection Disc Hole	1000 per Roll	£33.00	£29.50

PREMIUM GOLD SIP PAD

Stop slippages with our Premium Gold Anti Slip Pads. The high performance adhesive ensures excellent grip on today's extra slippery coatings.

205/15	15 Pot Tint Unit	66.5 x 47.0 x 22.5 cm	18 litres of Heat Transfer Fluid	£995.00
205SUNK	Counter Sunk Kit			£45.00

TINT UNIT SERVICE GIVE YOUR TINT UNIT AN OVERHAUL TO GIVE YOU OPTIMUM PERFORMANCE.

To keep your lab running efficiently, why not take advantage of our tint unit service package. This service includes a thorough overhaul and inspection of the unit checking for leaks or any other damage, whilst replacing the thermostat. To minimise any disruption or inconvenience caused to the lab, loan units are available as part of the package. The unit will be PAT tested and returned to you with a 12 month warranty against any parts replaced.

MAINLINE TINT HOLDER

Available in two or four lens options in white for UV or black for general tinting.

- Made from stainless steel and plastic
- Not for use with MAR Stripper

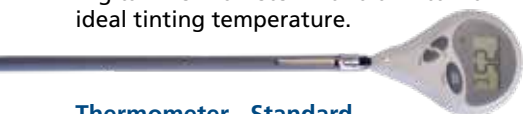

CODE	DESCRIPTION	PRICE
E024	White Single	£26.00
255DW	White Double	£35.00
E023	Black Single	£26.00
255D	Black Double	£35.00

THERMOMETERS

Professional Digital

Digital Thermometer with alarm to warn when outside the ideal tinting temperature.

Thermometer - Standard

Features a protective casing to lessen chances of breakages.

E030	H.T.F Fluid 5 litre bottle	£40.00	£38.00

MAINLINE 1 MINUTE UV

A powder formula for making any CR-39 lens capable of absorbing ultraviolet radiation up to 400nm in a simple treatment process. This fast absorbing formula is compatible with anti-reflection coating, tinting, and scratch resistance coating processes. The powder formula is sealed in water dissolvable bags, and packaged in paper envelopes.

Features:

- AR compatible
- Non-yellowing
- Extended shelf life (Over one year)
- Low shipping costs (each packet weighs less than one oz.)
- One minute treatment for 96-97% absorption
- Two minute treatment for 98% absorption

CODE	DESCRIPTION	PRICE	MULTIBUY 3+
C347-1MV2	1 Minute UV (Non-Yellow)	£19.50	£16.50

OPTISAFE UV FORMULA

For making any CR-39 lens capable of absorbing ultraviolet radiation up to 400nm in a simple treatment process. Compatible with Anti-reflection coatings and tinting, scratch resistance coatings.

Features:

- 500+ UV treated lenses per bottle
- AR compatible
- Non-yellowing
- Clear formula
- Long lasting
- No boilovers
- Three minute treatment for 97% UV absorption
- Five minute treatment for 98% UV absorption
- Greater tank life

CODE	DESCRIPTION	PRICE
C337	8oz Uv Formula	£47.00

OPTISAFE® UV FORMULA III

Features:

- Extended shelf life (over one year)
- Low shipping cost
- AR compatible
- Non-yellowing
- Clear formula
- Long lasting
- No boilovers
- Three minute treatment for 96% and five minutes for 97% UV absorption

PHANTOM® ONE MINUTE UV

Features:

- AR compatible
- Non-yellowing
- Extended shelf life (over one year)
- Low shipping costs (each packet weighs less than one oz.)
- One minute treatment for 96-97% absorption
- Two minute treatment for 98% absorption

CODE	DESCRIPTION	PRICE
C351P	Phantom 1 Minute UV Packet	£29.00

PHANTOM® ONE MINUTE UV WITH SCRATCH RESISTANCE

Features:

- AR compatible
- Non-yellowing
- Extended shelf life (over one year)
- Low shipping costs (each packet weighs less than one oz.)
- One minute treatment for 96-97% absorption
- Two minute treatment for 98% absorption

CODE	DESCRIPTION	PRICE
C351S	1 Minute UV with Scratch Guard	£31.00

ADVANCED UV FORMULA

Features:

- 300+ UV treated lenses per bottle.
- Treatment is permanent.
- Treated lenses can be tinted and coated.
- Bonding process not a coating process.
- No baking, expensive equipment, or pressure cookers needed.
- Treated lenses will have virtually no colour.
- One minute treatment for 96% UV absorption
- Five minute treatment for 98%-99% UV absorption.

CODE	DESCRIPTION	PRICE
C342	Advanced UV 16oz	£30.00

RG400 - UV VISIBLE LIGHT METER

Ideal for laboratory use, checking lens requirements for UV and LTF readings

- Fully Automated Calibration
- Battery Operated/Portable
- Fast Reading UV (320-400nm)
- Visible Light Range 400-700nm (The visible portion of the instrument may be used for fashion tint control only)
- Small footprint
- Fast and Accurate. A must for all practices for an instant safety check

CODE	DESCRIPTION	PRICE
UVMETER1	UV Visible Light Meter	£495.00

LENS DYE PACKETS

Better colour consistency from batch to batch.

The most advanced lens dyes available today, providing the most consistent, uniform colours in the least amount of time. The molecular composition of the dyes allow for rapid penetration into the lens matrix, bonding to the lens and providing an excellent resistance to fading. Plastic CR-39™ (coated and uncoated), hi-index, and polycarbonate lenses can be successfully tinted with Mainline dyes.

Features:

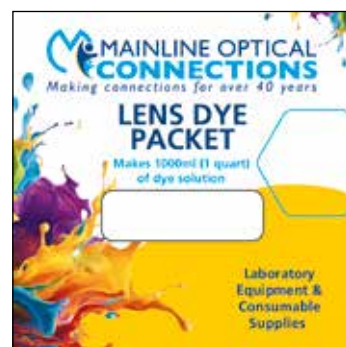

- Faster tint absorption into lens materials.
- No mess, no shaking, spilling, and rinsing of bottles.
- No loss of product from spillage. Entire pouch goes unopened into hot water.
- Extended shelf life. Packets last over five years on the shelf.
- Less storage space needed.

NEUTRALISER

Effective Colour Removal for Tinted Lenses

This neutraliser is specifically designed to remove tint from CR39, polycarbonate, and Hi-Index lenses, offering a reliable solution for lens colour correction.

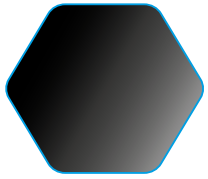

Features:

- Slow evaporation rate for extended use and better control
- Virtually odourless for a more pleasant experience
- Non-yellowing formula to maintain lens clarity

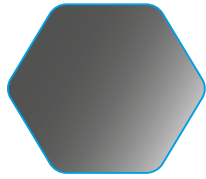

Ideal for professionals looking to safely and efficiently remove unwanted colour from lenses

LENS PREP

Pre-Tinting Solution – Optimised for Even and Rapid Tint Absorption

This pre-tinting solution is designed to prepare lenses for optimal tinting results, ensuring they quickly and evenly absorb negatively charged tints. By using this solution, the tinting process is sped up, improving both efficiency and consistency.

Key Benefits:

- Speeds up the tinting process by enhancing the absorption of tints
- Effectively dissolves oil and grease from the lens surface, ensuring a clean, uniform finish
- Prepares lenses for better, more consistent colour application

Perfect for use before tinting to achieve superior, even results and reduce processing time.

CODE	DESCRIPTION	PRICE
E036	Lens Prep 1 Litre bottle	£18.00

GFC GRADUATION UNIT

Precision Timer-Controlled Tint Graduation.

The GFC Graduation Unit features a timer-controlled system for precise graduation tint colouring. Its adjustable arm allows you to position it according to the lens diameter or shape, ensuring accurate tint application. The double-action movement prevents the formation of solid lines on the lens, delivering a smooth, graduated tint every time.

CODE	DESCRIPTION	PRICE
A700	GFC Graduation Unit	£499.00

- Make sure to stir your dye before use to remove any cold spots from the beaker.
- Make sure the lens holder isn't applying too much pressure onto the lenses as this will cause stress marks to be left on the lens after tinting.
- To reduce tinting time we recommend a 15 to 30 second dip into lens prep before tinting.
- Clean your beakers when refreshing colours. This allows for greater colour consistency and removes contamination.
- We recommend that you check the condition of your heat transfer fluid every 6 months and if contaminated or old replace it. Heat transfer fluid will be transparent when fresh and over time will turn to a dark brown as it is used.

If colours are coming out slightly off, there are a few things you can check:

- Is the temperature of the Tinting unit correct? It should be running at between 92 to 95°C
- Dye might be old or contaminated.
- Different coatings and materials can react differently. Coatings can have an affinity for one of the base colours of the dye causing hue variations.

POCKET CLEANER

CUSTOM MICROFIBRE CLEANING CLOTH IN CONVENIENT POUCH

The Pocket Cleaner is the perfect solution for your customers to keep their glasses spotless wherever they go. This small, high-quality microfibre cleaning cloth is securely stored inside a durable pouch that easily clips to your keyring, handbag, or any other accessory for convenient access wherever you are.

Perfect for cleaning glasses, lenses, and screens, the Pocket Cleaner is both practical and promotional, offering a great way to showcase your brand or logo. Custom made to your specifications, these cleaners are ideal for giveaways, events, or corporate gifts.

Key Features:

- Compact & Convenient: Small microfibre cloth housed in a handy pouch
- Portable Design: Clips easily onto keyrings, handbags, or bags for on-the-go cleaning
- Custom Branding: Fully customisable with your logo or design
- Versatile Use: Ideal for cleaning glasses, lenses, and small screens
- Minimum Order Quantity: 500 pieces

Elevate your branding while providing a practical solution with our custom Pocket Cleaner.

Perfect for businesses looking for a useful, everyday promotional item.

£60.00 (RRP £150.00).

BULK PACKS AVAILABLE.

YOU CAN MANUFACTURE CHEMISTRIE IN HOUSE

Call us today to find out more about our Chemistrie Lab Packages.

A VERSATILE MAGNETIC LENS LAYERING SYSTEM CHEMISTRIE IS A PATENTED MAGNETIC LENS SYSTEM THAT ALLOWS PRESCRIPTION EYEWEAR WEARERS TO SEAMLESSLY ATTACH ADDITIONAL LENSES, INCLUDING SUN PROTECTION, READING LENSES, BLUE LIGHT FILTERS, AND 3D LENSES. USING DISCREET MICRO-MAGNETS EMBEDDED NEAR THE EDGE OF THE LENSES, THIS SYSTEM OFFERS A STYLISH AND CONVENIENT ALTERNATIVE TO TRADITIONAL CLIP-ONS.

THE ULTIMATE CLIP-ON LENS SOLUTION

We can supply a pair of demo goggles with plano lenses to check the fit, prescription goggles are available for same day despatch.

Left and Right lenses can be specified separately to allow for different Rx.

Replacement parts available: Eye cup, Nose bridge, Strap, Side Clip.

WARNING

Soap or anti-reflection spray cleaners should not be used on the lenses as the anti-fog coating will be damaged.

TIPS:

Avoid rubbing lenses with fingers; After use, rinse well with fresh water and air dry.

WELCOME TO THE WORLD OF 3D PRINTED EYEWEAR

The Mission Eyewear brings eyewear manufacturing to your doorstep. With the G1&F1 you have a workflow which allows you to cleanly print and cure 3D printed eyewear. The G1 Prints the frame using specially designed material from Henkel to print the eyewear layer by layer using digital light processing (DPL). This material and process allows the frame to be left with a very smooth finish that can be left matt or polished up to shine.

The material has been Rigorously tested and is:

- Heat Resistant up to 550 without warping.
- Flame resistance
- Sweat resistance
- Mechanical stability
- UV Resistance
- Non-Toxic to cells
- Doesn't cause Skin Irritation
- Long term durability

With a wide range of colours available you can get creative with the eyewear available for your patients with the worry of MOQ's

JOIN THE VOLCANE EVOLUTION

We are looking to connect with practice owners who view optics as an art form supported by rigorous science. Whether you are a long-standing partner of Mainline Optical Connections or a practice looking for a fresh reason to excite your patients, Volcane offers the perfect opportunity to elevate your dispensing portfolio.

The future of independent optics is clear, crisp, and quiet. It is time to experience the Volcane difference.

BUILT FOR THE BOLD INDEPENDENT

Mainline Optical Connections understands that independent practices thrive on point of difference. Volcane is not a product you will find in every high street chain. It is a tool for the early adopters who want to lead the conversation on eye health and lens technology.

- Award-Winning Support: Partnering with Mainline means you are never navigating new technology alone. Our team provides the gold-standard support that has been recognized across the industry.
- Superb Guarantees: We back the quality of Volcane with robust guarantees that give both you and your patients total peace of mind.
- Accessible Premium Quality: While Volcane sits firmly in the premium category, the pricing structure is designed to be attractive, ensuring that superior technology remains a viable choice for your discerning patient base.

FRANCE
VOLCANE

PURE CLARITY THROUGH NOISE CANCELLATION

THE VISIONARY EDGE: Why Volcane Lenses are the New Standard for Independent Optics

In a world of mass-market solutions, the true visionary knows that excellence is found in the exclusive. Volcane Ophthalmic Lenses have arrived in the UK to redefine what independent practices can offer. Supplied exclusively by Mainline Optical Connections, these premium lenses are crafted specifically for those who refuse to settle for the status quo.

The headline technology within Volcane lenses is a breakthrough often described as noise cancellation for optics. Much like high-end audio equipment filters out background static, Volcane's advanced surfacing technology eliminates the visual aberrations and peripheral distortions that plague standard digital lenses.

By neutralizing these optical artifacts, patients experience a level of visual purity that feels natural from the moment they put on their frames. It is not just about seeing; it is about seeing without the effort.

WELCOME TO MAINLINE OPTICAL CONNECTIONS VISION CENTRE

At Mainline Optical Connections, we're proud to bring four decades of experience to the optical industry. Our unwavering commitment is to provide innovative solutions and the essential support you need to drive your success.

As the official distributor of Huvitz and MEL EasyFit Glazing Systems, we deliver the latest advancements in optical technology. From state-of-the-art equipment to a comprehensive range of consumables, we've got everything your lab and dispensing team need to excel.

SIMPLE AND CONVENIENT ORDERING

Ordering from Mainline has never been easier. Visit our website, or call our friendly team for personalised assistance. If you need a product not listed in our catalogue, let us know—we'll do our best to source it for you.

FAST, RELIABLE DELIVERY

Over 98% of orders placed before 4:30 PM are dispatched the same day for next-day delivery. Plus, every order comes with a sweet treat—because great service should always come with a little extra!

Welcome to Mainline Optical Connections—your partner in optical excellence!
