1,000/Roll
£39.95

New RedEdge™ Finishing Pads

Features:

- Reinforced micro-cellular polyurethane foam provides superior strength.
- Innovative process enhances lens side adhesive for improved adhesion.
- Modified block-side adhesive designed to hold, yet release easily from all finish blocks.
- Double tabbed for ease of removal.

Benefits:

- Reinforced foam provides superior torque resistance, thereby reducing axis failures.
- Excellent conformability on all lens curves.
- Enhanced adhesive allows exceptional holding power for today's longer finishing cycle times.
- Shape offering matches most common block styles.
